MONDAYS

1:00-3:00

A HISTORY OF EUROPEAN ART

Coordinators: Gene Flynn and Alan Johnson

This study group will look at European art in the broad sense, including architecture, sculpture and painting. We will begin with the Gothic period and then proceed to the early Renaissance. Using DVDs, coordinator presentations, and discussion, we will explore both the artist's work and where we might find it today. This study group will continue in the spring and summer sessions.

TUESDAYS 9:30-11:30

EXPERIENCING ART

Coordinators: Basilio King and Christopher Melby

This workshop offers an opportunity to explore different techniques and forms of art, such as brush painting, pen and ink, watercolor, and drawing. All levels of experience and expertise are welcome. Participants will bring their own supplies and materials and will work independently. While class facilitators and participants can offer encouragement, ideas and suggestions to each other, this will NOT be an instructional class.

MARY'S TRAVEL ADVENTURES

Coordinator: Mary Svetlik

Escape the winter blahs and join me as I share some of my travel adventures. Each week this study group will learn about a different European country (or countries) and then view a DVD created from my travel pictures. This year the sequence of countries will be Spain, Holland and Belgium, Norway (including Denmark and Sweden), Greece, and Iceland and Greenland. Perhaps you are considering a visit to one of these places. Of, if you have been there, don't skip the class; please feel free to bring in your own pictures and/or relate your favorite experiences.

TUESDAYS 1:00-3:00

ONE WOMAN, ONE VOTE

Coordinators: Ruth Sellers, Lynn Shevelenko, John Sellers

In 2020, the passage of the 19th amendment to the Constitution, giving women the right to vote, will celebrate its 100th anniversary. Throughout history, being able to vote has been synonymous with enjoying a political voice. We'll explore the history/evolution of the quest for voting rights and specifically efforts by women to gain the right to vote and to enjoy equal opportunities within American society. We will feature the lives of individual women and groups of women who have shaped our history and who deserve recognition.

WEDNESDAYS 9:00-11:30

BOGART ENCORE

Coordinator: Jan Brietze

During a film career of almost 30 years, Humphrey Bogart appeared in more than 75 feature films. In 1999, the American Film Institute ranked Humphrey Bogart as the greatest male star of Classic American Cinema, and Bogart still ranks as the #1 or #2 best actor of all time on many polls. Over his career, he received three Academy Award nominations for Best Actor, winning one for *The African Queen*. Over the course of five weeks I will present a chronological biography of Mr. Bogart and we will watch some of his memorable films.

WEDNESDAYS 9:30-11:30

A CLASS IN TWO PARTS

Coordinator: Marlene Brusko

Part 1: “You’ve Got to be Kidding Me” A. Designer babies are now possible thanks to what is called “the biggest biological discovery since evolution.” More ethical uses of the discovery could also revolutionize healthcare.

B. Some believe a choice to change one’s gender must be deviant, abnormal and perhaps even immoral, so why does it seem to be occurring so frequently? **Part 2:** “The Aging Brain”: We will look at why the keys keep walking away from where I left them and other mysteries aching for solution. There is also good news we don’t want to miss. **NOTE: THIS STUDY GROUP WILL MEET THE FIRST FOUR WEEKS.**

WEDNESDAYS 1:00-3:00

ANCIENT SITES OF THE MEDITERRANEAN

Coordinators: Jim and Kathy Secora

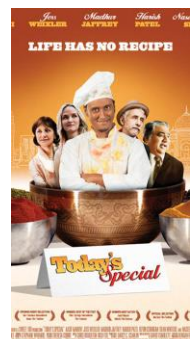

This study group will look at ancient archeological sites/civilizations in Malta, Turkey, Crete, Santorini, Olympia, Delphi, Athens, Sicily, Rome, Naples, and Petra. The presenters have visited most of these sites and will share their experiences in their presentations. Is Santorini the lost island of Atlantis? Which ancient civilization had in building toilets with sewers? What’s up with all the megalith stone sites?

MOVIES THAT RELATE TO RESTAURANTS, FOODS, AND COOKING

Coordinators: Deanna Stuart and John Kness

Almost all the movies, actors, and directors we will see and discuss have received or been nominated for Oscars, Emmys, Tony’s, and Golden Globe Awards. Among the actors we will discuss are Juliette Binoche, Tony Shalhoub, Stanley Tucci, Meryl Streep, Alec Baldwin, and Helen Mirren. Small tastings will be provided.

THURSDAYS 9:30-11:30

COME PLAY BRIDGE

Coordinator: Andrea Zietlow

This study group is for people who already know how to play bridge. Join us if you would like to meet other ICL members who play and want to have more opportunities to play the game. We welcome those who have recently learned the game as well as intermediate and advanced players. We will be playing for FUN, not cutthroat! Hopefully we can all learn from one another. **NOTE: This is an ongoing study group, but new participants are always welcome.**

UNDERSTANDING THE HISTORY AND SPECULATING ON THE FUTURE OF “THE OTHER EUROPE”

Coordinators: Mike and Marilyn Glass

Part 2 continues an in-depth analysis of Eastern Europe, covering the years 1918–1953, the period when the continent emerged from World War I’s carnage and dislocation to become an even more complicated region. Beginning with the Paris Peace Conference, we journey for 35 more grueling and demanding years to witness the Cold War becoming a fact of life in the Eastern Bloc. By 1953, when Stalin dies, only Finland, Austria, and Yugoslavia are not under communist rule. **NOTE: THIS STUDY GROUP MEETS THREE TIMES, THE FIRST CLASS STARTING ON FEBRUARY 6.** Part 3, the final segment of five weeks, will be offered in Summer 2020.

THURSDAYS 1:00-3:00

THE HISTORY OF THE FBI, PART 1

Coordinators: Les and Kathleen Miller

This study group will review the history of the FBI, from its establishment as the Bureau of Investigation in 1908 until approximately 1930. It will include discussion of the events in the ICL reads selection for 2020.

A BRIEF HISTORY OF FAMILIAR THINGS

Coordinator: Rem Stokes

Many of us become so accustomed to the familiar things around us that we forget they have a history. This study group will delve into the past and explore how common things like salt, chocolate, glass, numbers and solar energy came into our lives.
